Our Learning Management System offers a staff training experience that goes far beyond the typical 'voice-over with text and images' approach. Instead, our courses combine interactive animations and real-life online role-play videos, a method proven to significantly improve learning engagement and retention.

Lots of organisations that we speak to, also find that our platform helps them make the most of newly available or unallocated training budget, or strengthen their compliance position ahead of internal audits, external inspections, or regulatory assessments.

Whether the goal is to evidence consistent staff development, reduce risk, or demonstrate a structured approach to mandatory Health & Safety training, our accredited courses provide clear audit trails and easy reporting that support compliance expectations.

We have a growing list of more than **150 topics** on **H&S, HR, FOOD SAFETY, CHILD CARE, SOCIAL HEALTHCARE & BUSINESS SKILLS** to choose from and which start from just **£10.00** per licence!

We have cost effective pricing plans to suit sole traders or organisations with up to and beyond 5,000 employees! Choose 'unlimited use full access', Pay As You Go, or discounted bulk purchases.

All of the following courses that we offer are 'approved' by prestigious organisations such as [IATP](#), [CPD](#), [IIRSM](#), [IFE](#), [ILM](#), [IoH](#) & [IOSH](#) (please click links) and are owned by VideoTile Learning Ltd and distributed under license.

"Our [ETA](#) and [LASER](#) Qualifications (please click links) are examined via VideoTile Learning Ltd".

The extensive list of courses shown below, include 'Virtual Instructor-Led' Training (VILT) course topics, where candidates can experience classroom based training, no matter where they are and our 'MICRO' courses are suitable for 'busy professionals, who can 'unlock new skills' in just 10 minutes!
